# North Dakota State Flag Color Recommendations

In cooperation with the Secretary of State, this guide provides accurate colors for the North Dakota state flag. The Pantone international color matching system is built around eight basic colors plus black and white. Printers who keep the basic colors in stock can mix ink to match the 1,300+ colors shown in guides and swatch books published by Pantone, Inc. To see the recommended colors listed below, visit a local printer to request viewing their Pantone color selector guides.

STATE HISTORICAL SOCIETY OF NORTH DAKOTA
